SUMMARY

Aviation professional with over 15 years of hands-on experience at EMBRAER - Brazil, specializing in aircraft interior assembly, CNC machining, and aircraft maintenance. Strong background in structural assembly, quality inspections, and hydraulic/pneumatic testing. Proficient in CATIA V5, Mastercam, and CNC programming for composite, wood, and aluminum parts. Recognized for technical expertise, problem-solving, and a collaborative team approach. Currently based in Ireland and open to new international opportunities.

EDUCATION

BSc Software Engineering |UNIFRAN, Brazil | 2023 – In Progress (NFQ Level 8)
MSc Biomaterials and Bioprocess Engineering |UNESP, Brazil | 2018 – 2019 (NFQ Level 9)
Technology in Industrial Mechatronics |IFSP, Brazil | 2013 – 2017 (NFQ Level 6)
Aeronautical Maintenance Mechanical Technician |Fenix School | 2009 – 2011 (NFQ Level 5)

EXPERIENCE

CNC MACHINIST | PRODIECO ADVANCED ENGINEERING SOLUTIONS – IRELAND | February 2025 – Present.

- Operate CNC machines for high-precision pharmaceutical components.
- Interpret technical drawings and apply quality checks to ensure compliance with standards.

PROCESS TECHNICIAN & CNC PROGRAMMER (3 & 5 AXIS) | EMBRAER-BRAZIL | March 2022 – June 2024

- Create and coordinate teams, scripts, and activity plans for the production line.
- Responsible for 3 and 5-axis CNC programming at the Embraer Interior Factory.
- CATIA V5 and Mastercam software.

CNC MACHINE OPERATOR | EMBRAER-BRAZIL | May 2012 – March 2022

- Manufacture parts in composite materials and aluminum, with varying geometries and degrees of complexity, operating a CNC machine, following production documentation, with assured quality.
- Perform visual and dimensional inspections, analyzing tolerance levels and discrepancies, rejecting/accepting parts according to their qualification.

INTERIOR ASSEMBLER | October 2008 – May 2012

- Special painting and finishing processes for executive and commercial aircraft.
- Perform and coordinate internal system adjustment, assembly, equipment, and testing activities, as well as installation and adjustment, by applicable production documentation, meeting quality, functionality, safety, and deadline requirements, and recording production data when requested.
- Experience working directly with the customer on commercial, executive, and military aircraft (E99, E170, E190, C390, PHENOM, LEGACY, and PRAETOR) and always striving to meet deadlines and quality.

TECHNICAL SKILLS

- CNC Programming (3 & 5 Axis), CATIA V5 & Mastercam
- Aircraft Interior Assembly & Structural Assembly
- Quality Inspection & Metrology
- Hydraulic & Pneumatic Testing
- Technical Drawings Interpretation

SOFT SKILLS

- Cross-functional teamwork in aerospace production environments
- Problem-solving in high-pressure manufacturing timelines
- Continuous improvement mindset
- Fast adaptation to new technologies and workflows
